

YOUR WORKING CHECKLIST

Before filing: check form editions, pages and instructions

How can I check that a saved USCIS form is still the right version to use?

Open the current official form page and compare its acceptable-edition information with the form and instructions you saved. Check the complete set of pages rather than the filename or download date alone. Keep edition review separate from eligibility, fees and filing-destination checks.

Check the boxes on screen or by hand. Use the notes area for records to find and questions to ask.

Your preparation checklist

- ☐ Open the specific form's official landing page.
- ☐ Read current acceptable-edition information.
- ☐ Check that saved form pages are from one consistent set.
- ☐ Keep the matching instructions with the working form.
- ☐ Review fees, signatures and destination as separate questions.
- ☐ Record the source URL and verification date before submission.
