

YOUR WORKING CHECKLIST

Medical evidence: vaccination and examination record organizer

How should medical and vaccination records be organized without deciding the immigration examination requirements?

Keep existing vaccination records, medical-source information and immigration examination documents separately indexed. The organizer prepares the history for the appropriate professional; it does not decide which medical requirements apply or how a completed examination must be submitted.

Check the boxes on screen or by hand. Use the notes area for records to find and questions to ask.

Your preparation checklist

- ☐ Index vaccination source with its source and event date.
- ☐ Index patient identity with its source and event date.
- ☐ Index examination record with its source and event date.
- ☐ Index professional instruction with its source and event date.
- ☐ Mark missing or conflicting information without inventing an answer.
- ☐ Compare the finished index with current official instructions before relying on it.
