

YOUR WORKING CHECKLIST

Medical treatment on a visitor trip: clinical and visa records

What does the official visitor guidance request for a medical-treatment trip?

The visitor source discusses a local diagnosis, a U.S. provider's treatment letter and evidence of how travel, treatment and living costs will be paid. Those records explain the proposed care; they do not make a hospital the visa or admission decision-maker.

Check the boxes on screen or by hand. Use the notes area for records to find and questions to ask.

Your preparation checklist

- ☐ Preserve the provider's actual description of the contemplated care.
- ☐ Record what has been agreed and what remains unsettled.
- ☐ Identify who proposes to travel and the role each person would play.
- ☐ Keep visa and admission information separate from the medical appointment.

Notes and questions to follow up
