Bank statement translation: balances, ownership and currency labels

How should a bank statement translation preserve financial information without changing the evidence?

Keep account ownership, statement periods, transaction labels and currencies visible. A translation communicates the record supplied; it does not verify funds, establish financial eligibility or convert a foreign balance into an accepted U.S. financial assessment.

Check the boxes on screen or by hand. Use the notes area for records to find and questions to ask.

Your preparation checklist

- ☐ Identify owner and statement period
- ☐ Preserve currency codes and debit signs
- ☐ Confirm permitted redactions
- ☐ Keep conversion calculations separately labeled
