

YOUR WORKING CHECKLIST

Compare translation privacy policies using concrete questions

Which privacy-policy details matter when comparing translation services?

Compare collection, translator access, subcontractors, storage, retention and deletion, rather than privacy slogans. A policy describes practices and legal terms; it is not proof that a particular order has been independently audited or that no data risk exists.

Check the boxes on screen or by hand. Use the notes area for records to find and questions to ask.

Your preparation checklist

- ☐ Compare the same personal-data categories
- ☐ Read sharing and tool-use clauses
- ☐ Ask about retention and deletion
- ☐ Save the dated policy and response

A little support for your next step.
