

YOUR WORKING CHECKLIST

Nursing education records and board-controlled review

How do I organize foreign nursing records without assuming one nationwide licensing checklist?

Use the intended nursing board's instructions and distinguish education, clinical experience, registration and current status. NCSBN provides an official starting point for internationally educated nurses; the relevant board controls its licensing requirements.

Check the boxes on screen or by hand. Use the notes area for records to find and questions to ask.

Your preparation checklist

- ☐ Identify board and route
- ☐ Separate theory, clinical and registration records
- ☐ Verify direct-source channels

Notes and questions to follow up
